PROFILE

I am an active Semester 6 student of the Information Systems Study Program, Universitas Komputer Indonesia, class of 2022. I am active in the Information Systems Student Association and have served as secretary, which honed my skills in communication, accuracy, teamwork, public speaking, and fostered leadership. I have a great interest in web development, especially in the field of UI/UX design, and have an interest in IT Support, with the ability to analyze and solve technical problems efficiently and precisely.
